

MODEL

Access Platform Transporters GPT PFC35

Technical Information

Each Motiv Access Platform Transporter has been individually designed to carry specialist machines. The GPT PFC35 is a compact trailer that will carry 15-20m spider lifts and will double up as a general plant trailer for hire companies and end users.

All trailers are compliant with new trailer type approval regulations

Standard Features

- Heavy duty soft ride suspension axles
- Fully galvanised steel chassis
- Easy to use aluminium loading ramps included. With safety anti kick up feature and easy access holders
- Rear prop stands for loading when unhitched, anti slip type
- Full road lighting with removable light board and easy plug in socket at rear (quick remove feature)
- Front marker and reversing lights
- 250mm auto-reverse brakes on all wheels
- Jockey wheel with extra safety retaining chain
- Heavy duty lashing rings fitted to chassis
- Polyethylene individual mudguards
- Supplied with 4 ratchet straps with clip on hooks

Optional Extras

- Bracket mounted spare wheel
- Bolt on track stop rail for tracked machines
- LED lighting, dual voltage
- Winch kit
